

*Dr. Mary Goodhealth D.D.S.*  
A Toothfairy

**Residence:**

The Toothfairy Cottage and Toothfairy Island in the Realm of Imagination\*

**Occupation:**

Dentist and Caretaker of Children's lost teeth which are preserved and the information (data) is recorded in the Toothfairy Island Research Lab computer. The data is used worldwide by scientists to help develop and promote better full health and dental care for children.

**Workplace:**

Toothfairy Island Research Center, The Toothfairy Cottage, Mobile Dental Vans, University and School classrooms.

**Job Responsibilities:**

World Ambassador for children and children's health.

To repair children's teeth and to give children and their families the knowledge so they can make responsible choices regarding nutrition, oral care, and health.

To teach children proper methods of brushing and flossing.

To promote dental care, nutrition, and bring dental care to children who have no access to care.

To help children make good choices and develop positive attitudes and goals for life.

\* Toothfairy Island sits at the end of the Rainbow Highway in the Realm of Imagination. Visitors have access to the island only by invitation from the residents of Toothfairy Island.

**Did You Know?**

One of the causes of bad breath can be plaque which is made of bits of food and bacteria that stick to the tongue and teeth. It is important to brush your teeth, tongue and the roof of your mouth to prevent stinky breath!
