

## **Dr. Spring Sunshine D.D.S.** A Toothfairy

### **Residence:**

Toothfairy Island in the Realm of Imagination\*

### **Occupation:**

Dentist and Research Specialist researching prevention of damage to children's teeth which are brought into the center. The research is used worldwide by scientists to help develop and promote better full health and dental care for children.

### **Workplace:**

Toothfairy Island Research Center, The Toothfairy Cottage, Mobile Dental Vans, University and School classrooms and in her homeland, the Seychelles Islands.

### **Job Responsibilities:**

To repair children's teeth and to give children and their families the knowledge so they can make responsible choices regarding nutrition, oral care, and health.

To teach children proper methods of brushing and flossing.

To promote dental care, nutrition, and bring dental care to children who have no access to care.

To help children make good choices and develop positive attitudes and goals for life.

\* Toothfairy Island sits at the end of the Rainbow Highway in the Realm of Imagination. Visitors have access to the island only by invitation from the residents of Toothfairy Island.

## **Did You Know?**

At birth, babies have no bacteria in their mouths. Bacteria is transferred from the parent to the baby through kissing, sharing of food and drink, and through verbal spray when the parents speaks to the child.
