

Professor Seemore Science, DDS, PhD, MD

A Toothfairy

Residence:

Toothfairy Island in the Realm of Imagination*

Occupation:

Scientist and Science Wizard

Workplace:

Toothfairy Island Research Laboratory, The Children's Dental Center, The Toothfairy Cottage, Dental Centers, Mobile Dental Vans, University and School classrooms.

Job Responsibilities:

To study and research oral health problems that harm children.

To train toothfairies in the art of scientific research.

To work closely with Mary Toothfairy, who is also known as Dr. Mary Goodhealth, and Dr. Hy Giene to educate children and their parents in nutrition, safe play, science, germ transmission, oral health and full body health.

To take children on educational field trips throughout their bodies to learn about their mouths: how the mouth works to keep their body healthy, how the mouth is part of the body's systemic defense system, how the mouth is important in other workings of the body, and the secrets to good oral health.

* Toothfairy Island sits at the end of the Rainbow Highway in the Realm of Imagination. Visitors have access to the island only by invitation from the residents of Toothfairy Island.

Did You Know?

Tonsils help fight infections. They are the "soldiers" that attack bacteria that cause illnesses before they can slip down the throat and make you sick.
