

Toothfairy Island

Toothfairy Island exists in the Realm of Imagination and can only be reached by the Toothfairy Busmarine. On the south coast of the island is Rainbow Lagoon where visitors dock and get their first glimpse of this magical island. Palm trees and colorful flowers line the shore. A charming path leads to a little village. There are only two main streets which are lined with quaint houses—one of which belongs to the most famous Toothfairy—Dr. Mary Goodhealth. The other permanent toothfairy residents, Dr. Hy Giene, Professor Seemore Science, Mary's parents, Aunt Dottie Goodhealth, and Snack Kid.

Celery trees, broccoli bushes, and spinach hedges grow along the shores and in the interior of the island. Some of the other residents of the island are found up the Veggie Trail by Giggle Springs. The Bubblebottoms: Suds, Bubbles, Bertram and Cozy make their home there. It is also the location of their world famous Toothfairy Island Hygiene Factory that makes all kinds of personal hygiene products such as toothbrushes, soap, and toothpaste.

Sylvia Saliva is a water resident of the island and lives in the ocean in and around Giggle Springs. She actively protects the island and chases away the Plaque Pirates who are trying to destroy the island. A tall, volcanic mountain stands in the island center and from it tumble bubbling springs, and waterfalls which feed grottos and the springs near the Bubblebottoms' home. In the middle and northern part of this enchanting land you can find swamp dinosaurs that live in the dark sections of the chocolate lagoons. On the western shore is a cove that is perfect for surfing named The Green Room Lagoon. What a wonder place to live and visit!

Did You Know?

A tomato has four chambers and is red. The heart is red and has four chambers. All of the research shows tomatoes are indeed pure heart and blood food.
