Centrix Dental provides Fluoride Varnish to Affiliates of National Children's Oral Health Foundation

(Charlotte, NC—May 27, 2009) Centrix Dental has made a donation to National Children's Oral Health Foundation (NCOHF) of 90,000 doses of fluoride varnish to help prevent childhood dental decay.

Centrix President Bill Dragan, said, "We are excited to be able to provide Fluorodose™ Fluoride Varnish to NCOHF to help preserve the oral health of thousands of kids in need. Quick and easy prevention using products such as Fluorodose™ will prevent a lot of unnecessary pain and suffering in the future and promote dental care awareness for lifelong oral health."

"Centrix Dental has provided our non-profit Affiliates a most effective product for prevention of pediatric dental disease: fluoride varnish. This generous donation will help prevent cavities for thousands of underserved children across the country who otherwise might never have access to this type of preventive measure," said Fern Ingber, NCOHF's president and CEO.

The donation, valued at \$75,000, will provide fluoride varnish at no cost to NCOHF Affiliates. Fluoride varnish has been found to be highly effective in preventing caries on permanent teeth and also to prevent or reduce caries in the primary teeth of young children.

About Centrix

As a company founded by a dentist—for dentists—Centrix's pledge is to "make dentistry easier" by providing solutions that improve a practice's productivity and provide superior patient care. With the increased demand for its products worldwide, Centrix is now established in over 50 countries throughout North America, Latin America, Asia, Oceania and Europe.

About the National Children's Oral Health Foundation (NCOHF)

The National Children's Oral Health Foundation (NCOHF) is a 501(c)(3) nonprofit, dedicated to raising awareness of the #1 chronic childhood illness: pediatric dental disease, facilitating delivery of comprehensive pediatric oral health services, and eliminating this preventable disease from future generations. NCOHF draws on vast national resources to secure and distribute product and financial donations along with innovative preventive programs to a growing network of not-for-profit community-based universities, health centers, dental clinics, and mobile programs throughout America.
