Sybron Dental Specialties Product Donation Benefits 42 NCOHF Nonprofit Affiliates

(Charlotte, NC—October 7, 2009) Sybron Dental Specialties, an industry-leading dental product manufacturer, has made a generous product donation of Premise Composite and Herculite XR Composite to the National Children's Oral Health Foundation: *America's Toothfairy®* (NCOHF) to provide vital dental treatment for underserved children across the country.

42 NCOHF nonprofit Affiliate dental facilities received composite materials as a result of Sybron's donation, valued at more than \$370,000. Premise and Herculite XR Composite products offer a wide array of options for NCOHF Affiliates to consider when treating a child who requires restorative dental services.

Mr. Dan Even, President of Sybron and past Chairman of NCOHF said, "Sybron has been proud to support the impressive work of NCOHF from its inception. They have done a remarkable job in a few short years in delivering comprehensive oral health services to the growing population of underserved American children."

"We are very appreciative that Sybron Dental Specialties, which provided the leadership gift to establish NCOHF, continues to be a steadfast partner in our fight to eliminate pediatric dental disease. Our Affiliates are able to reach more children from vulnerable populations with quality dental care because of Sybron's monumental support," said Fern Ingber, NCOHF's President and CEO.

About Sybron Dental Specialties

Sybron Dental Specialties, a Danaher Company (NYSE: DHR), is a leading manufacturer of high technology dental, dental implant, and infection prevention products. Sybron products are consistent sales and technology leaders in the dental restorative, orthodontic, endodontic, and infection prevention marketplace. Source: www.sybrondental.com.

About the National Children's Oral Health Foundation: *America's Toothfairy®* (NCOHF)

The National Children's Oral Health Foundation: *America's Toothfairy®* (NCOHF) is a 501(c)(3) nonprofit, dedicated to raising awareness of the #1 chronic childhood illness: pediatric dental disease, facilitating delivery of comprehensive pediatric oral health services, and eliminating this preventable disease from future generations. NCOHF draws on vast national resources to secure and distribute product and financial donations along with innovative preventive programs to a growing network of not-for-profit university and community based dental clinics, health centers, and mobile programs throughout America.
