

## **Practice of Distinction Resource:**

### **Tips from the ToothFairy**

One of the benefits of being a Practice of Distinction is providing your patients Tips from the ToothFairy. This tips sheet is a simple listing of important oral health tips for parents. They come three to a page with room at the bottom to print your practice contact information, attach a practice sticker, or add a stamp. These tips are easy to attach to a receipt or visit summary, and will help your patients continue positive oral health behaviors between visits. Click below to download your Tips from the ToothFairy.
